

SFES PRO Filter Systems utilize a modular design offering multiple removable connection fittings of various sizes anchored by removable clips. This design also incorporates union connectors to connect single heads into twin, triple, and quad manifolds. This offers much flexibility as heads can be added to existing systems for pre-filtration or post filtration needs and different sized fittings can be used on the inlet and outlet connections depending on the application.

Item	Item Number	Item Description
Head	401800	Single Head w/o Fittings or Mounting Bracket
Mounting Bracket Single	507087	Single Plastic Mounting Bracket
Mounting Bracket Twin	507052	Twin Manifold Stainless Mounting Bracket
Mounting Bracket Triple	507054	Triple Manifold Stainless Mounting Bracket
Mounting Bracket Quad	507050	Quad Manifold Stainless Mounting Bracket
Union Connector	501805	Union Connector for Parallel Manifolds
Union Plug	501807	Union Plug for Series / Combo Units
End Plug	501803	End Plug for all Systems
Locking U-Clip	501801	Locking Clip for all Connections
1/2" Male NPT Fitting	501812	Standard Fitting for Manifold Systems
1/2" Cross Fitting	501505	Cross Fitting for Pressure Gauge/Drain Assembly 1/2"MPT
Ball Valve 1/4"	501202	Drain / Pressure Relieve Valve
Pressure Gauge	503106	Pressure Gauge
3/8" Male NPT Fitting	501814	3/8" Male NPT Fitting for Water Connection
3/8" Female NPT Fitting	501816	3/8" Male NPT Fitting for Water Connection
3/8" QD Fitting	501818	3/8" QD Push Connect Fitting for Water Connection
3/8" Cross Fitting	501823	Cross Fitting for Pressure Gauge/Drain Assembly 3/8" MPT
Fitting Oring	502019	Universal Oring for all Fittings
